

H05 round 1 (exploratory, non-holdout, 1-min bins unless marked)

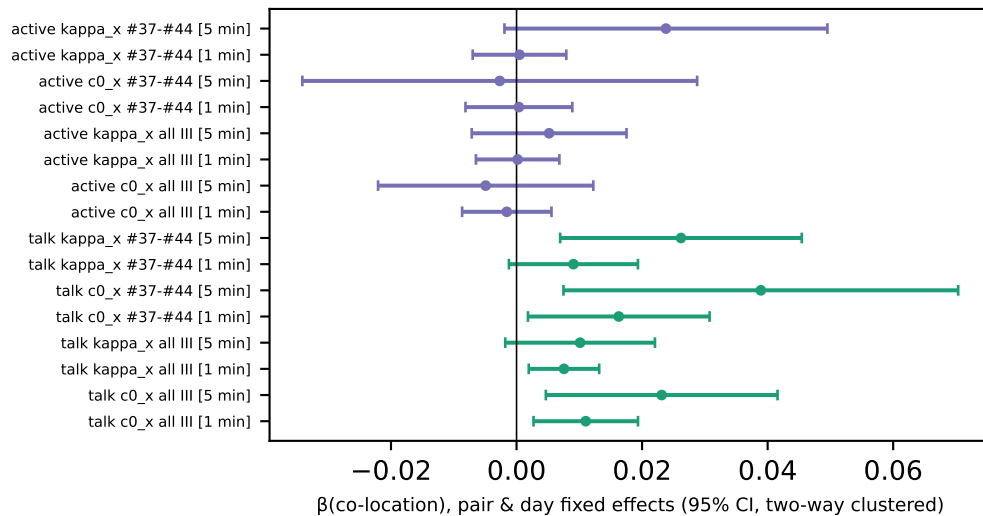

(a) Talk spins: rooms are coupled blocks
(#35-36 regime II; p = room-label permutation)

(b) H05-MF two-block mean field, talk spins
(day-bootstrap 95% CI)

(c) Pooled pair-day DiD: co-location raises talk coupling, not activity coupling

(d) Active spins: whole-swarm EP is at the null level
